

# Identifying Trees in the Local Area

**How many can you find?** Use this identification sheet. Alternatively, use the link to the **Woodland Trust**. Here you can find out more information about identifying different types of tree in the UK. It even has an A-Z guide.

**TOP TIP:** The majority of these trees can be spotted around Paddy Freemans Field and the path that leads along the bottom of Paddy Freemans Park. To find one or two, you may need to venture a little further. Look out for the Horse Chestnut trees nearer Armstrong Bridge. **What do you think is the most common tree found in Paddy Freemans?**

WOODLAND  
TRUST

There are online activities too! [http://www.treetoolsforschools.org.uk/activitymenu/?cat=tree\\_id](http://www.treetoolsforschools.org.uk/activitymenu/?cat=tree_id)

**Extra Challenge:** Sketch some of the leaves, or even the trees, that you find along the way.

⚠️ Remember to stay safe. Respect social distancing and wash your hands after being outdoors.
